Hi Dave,

Should we also have JB review the letter? See Martha's email below.

Jayne – this letter is fine. My only concern is NWEA. Dave asked for an attorney to be assigned just in case things go south. Maybe we won't need it.

Subject: Comments Due by Nov 11: Reminder Letter to Oregon DEQ to Submit an EPA Approvable NPS Mgt Plan Update or Risk Impact on FY15 319 Funding

Hi All,

Dave Croxton requested we send letters to all of our states reminding them that each state must submit an EPA approvable nonpoint source (NPS) management program update in time for EPA's 'satisfactory progress' review under Clean Water Act § 319(h)(8). Not doing so risks a determination of unsatisfactory progress which may impact receipt of FY15 Clean Water Act § 319 funding.

Dave reviewed the template letter and requested I distribute state specific letters for your review (see attached for the letter to Oregon DEQ).

Once comments are received and addressed on letters to all of our states, Dave will submit the letters to HQ for their review (and as a way to see if they are willing to back us up in any action we would like to pursue) and then send out to the states.

Feel free to ask Dave or me any questions and we welcome your input.

Cheers,

Jayne Carlin, Regional NPS Coordinator
